

RASH

Referral Animal Skin Hospital

IMMUNOTHERAPY

Is immunotherapy right for your patient?

RASH Vets immunotherapy process.

VET

- ✓ **A diagnosis of atopic dermatitis**
- ✓ **Successful screening of immunotherapy checklist**
- ✓ **Processing of patient information**

LAB

Blood sample submitted for allergy testing

E.g. Heska Allercept IgE serology test.

RASH

- + **Analysis of results and history by registered specialists**
- + **Tailored formulation of immunotherapy treatment and plan**

Together, let's elevate the standard of veterinary care in New Zealand.
